

**JPR-3/250E Pumpenstation**

Art.-Nr.: 7.002.72

CSR series**IPR Pump Station with built-in SR25 Satellite Station module.**

IPR Pump Stations with built-in SR25 satellite station module.

The CSR Series main station enables execution of all sanitation operations(rinsing, foam application, disinfection). Depending on the model version there is a possibility to connect additional satellite stations. CSR series main stations are recommended for smaller plants where the distance between washing points is small.

All main stations are provided with:

Eko central system digital control panel

Pressure Ganges outlet and inlet

Pressure sensors to ensure pump safety

SoftStart System to provide smooth operation thru ensuring long life of the pump.

technical data:

number of stations:	2- 3 pcs.
Water pressure on entrance:	min. 2,5 bar
Water pressure on exit:	16 bar + entrance pressure
Rated performance:	75 l/min
Main supply:	3 x 400V
pump:	2,2 kW
dimenisons:	1130 x 620 x 390mm
