

Smoking sticks washing machine
for 500 smoking sticks
hot water

Art.-Nr.: 1.612.10

Smoking sticks washing machine for 1.000 mm

The machine is created for fast and effective cleaning of smoking sticks in food processing industry. It consists of a drum for washing and rinsing, and a control panel. The sticks loading is performed manually. The washing chamber must be filled in up to 2/3 of the capacity for better cleaning of sticks. The water is heated by electric heaters, a steam injector or hot water (directly provided by the client). The process of detergent filling dosing, washing, rinsing and used water outlet are automatically. The duration and the temperature of washing and rinsing are adjustable.

Art.-Nr.: 1.612.10

Technical data:

use: Waschen vor Rauchspießen
Kapazität : 500 Stück
Dosieren: ja
Heizung: 60°C Heißes Wasser wird vom Kunden besorgt
Getriebemotor: 1,1 kW
Installierte Leistung 1,6 kW: 3/400V/50Hz,
Wasserzulauf: min. 2 bar
Wasserauslauf: DN50
Abmessung (LxBxH): 1545 x 930 x 1432 mm
