

Smoking sticks washing machine
for 500 smoking sticks
steam

Art.-Nr.: 1.612.12

Smoking sticks washing machine for 1.000 mm smoking sticks

The machine is created for fast and effective cleaning of smoking sticks in food processing industry. It consists of a drum for washing and rinsing, and a control panel. The sticks loading is performed manually. The washing chamber must be filled in up to 2/3 of the capacity for better cleaning of sticks. The water is heated by electric heaters, a steam injector or hot water (directly provided by the client). The process of detergent filling dosing, washing, rinsing and used water outlet are automatically. The duration and the temperature of washing and rinsing are adjustable.

Art.-Nr.: 1.612.12

technical data:

use:	smoking sticks
capacity :	500 pcs
Dosage:	yes
heating:	steam, 3- 12 bar/ 135°C
engine:	1,1 kW
installed power	1,6 kW, 3/400V/50Hz,
water pressure:	min. 2 bar
water outlet:	DN50
dimensions (LxWxH):	1545 x 930 x 1432 mm
