

Aprons washing machine

Art.-Nr.: 1.577.70

Aprons washing machine,

The machine is created for washing rubber aprons. The machine is equipped in all secure facilities, with two parallel brushes and injector to provide detergent. The operation starts by the use of two photo cells. The aprons are put from the top of the machine.

The machine complies with the council directives no. 2006/427EC and 2006/95/EC and USDA regulations.

Art.-Nr.: 1.577.70

technical data:

power supply:	400V / 3 Ph / 50 Hz
converter:	24V DC
Installed power:	~ 0.8 kW
Protection type:	IP 65
Water inlet:	min. 2 bar
Water outlet:	1¼" R
dimensions:	
length:	1690 mm
width:	445 mm
height:	815 mm
