

Lifting- tipping device  
2050-2550 mm  
Righth side, stationary  
90° rotated fork

Art.-Nr.: 4.005.02

### Lifting-tipping device 2050-2550 mm with 90° rotated fork

The device is created for light, comfortable lifting and tipping of eurobins/buggies DIN 9797.

The device consists of a column, an engine with brake, drive (with two chains) and fork (the fork can be straight or rotated)

The devices are made of stainless steel 1.4301, except for a pusher, chains and its circles.

The safety system is a standard construction (two chains).

The lifting and tipping devices can be stationary or mobile (only by max. tipping height up to 2550 mm), left or right construction.

By tipping height over 3050 mm the devices have to be attached to the wall or ceiling

The machines are according to EU-guidelines /Council Directives Nr. 2006/42/EC and 2006/95/EC and the USDA-Regulations

Art.-Nr.: 4.005.02

technical data:

power supply:	3 x 400/ 50 Hz
voltage control:	24 V AC
power:	0.8 kW
protection type:	IP 65
speed:	5 m/min
length:	937 mm
width:	325 mm
width with fork:	1.013mm
total height:	3.490 mm
